poppy

Cami

Color	Pearl
Collection	Solid
SKU	FB-S-Y-0001-0003

MATERIAL

Construction	Woven
Composition	Rayon 74% Polyester (UV) 26%
Finish	Performance Chenille
Backing	Yes
Weight	15.36 oz / Linear Yard, 336 GSM
Country of Origin	USA

DIMENSION

Unfinished Fabric Width	56.00 in
Fabric Width	55.75 in
Vertical Repeat	14.54 in
Horizontal Repeat	0.06 in
Match Type	Free Match
Railroad	Yes

APPLICATION

Suggested Use(s)	Bedding, Decorative, Upholstery
Outdoor Durable	No

PERFORMANCE

Category	Commercial Grade
Wyzenbeek	33,000
Flammability / Smolder	CA TB 117-2013: PASS, UFAC: Class I
Lightfastness	AATCC 16.3 2020 Grade 4 min @ 40 hours
Pilling	ASTM D3511-02: Class 4
Stain Resistance	Yes
Clean Code	W
Bleach Cleanable	No

WATER-BASED CLEANING

No Machine Wash

No Tumble Dry

No Iron

No Dry Clean

Soap & Water

Stain Protection

Liquid Resistant

ROUTINE MAINTENANCE

Vacuum regularly using an upholstery attachment, dirt and dust cause fabric to wear faster. Flip, rotate, and fluff removable cushions regularly to ensure even wear and increase longevity. Do not rub or brush excessively as it may cause fuzzing. We recommend annual professional steam or extraction cleaning to keep upholstered furniture looking its best.

SPOT CLEANING

Blot up excess liquids with a clean, dry towel and brush off any loose debris. Prepare a solution of 1/4 teaspoon mild detergent (such as standard dishwashing liquid) per 1 cup lukewarm water. Apply with a misting spray bottle and allow to soak into the fabric, do not oversaturate, as leftover soap residue attracts dirt. Work into the affected area with a towel or sponge, from the outside inward. Rinse thoroughly with clean water, blot excess moisture, and allow to air dry. Repeat as needed. For oil-based stains such as salad dressing, apply an absorbent like cornstarch directly on the stain for 10 minutes, remove with a straight edge, vacuum to extract, then follow the routine cleaning process. Some stains like permanent marker, mustard, or nail polish may not be completely removable.

PROFESSIONAL CLEANING

We recommend annual professional steam cleaning or extraction cleaning to keep performance fabrics looking their best. High-grade or harsh professional cleaners are not recommended or necessary.
